

FIG. 301.—Muscle fibers in close relation to the wound tract. Rupture of fibers probably by the trauma of the missile. Numerous leucocytes indicate a pyogenic invasion. One muscle fiber in the lower right-hand corner shows chemical change, as indicated by retention of the basic dye. Accession number 4709, Army Medical Museum. Negative number 46117. Hematoxylin and eosin stain;  $\times 900$
