Surplus kit <sup>2</sup> .....do.....		1	1	Q	Carried in surplus kit bag.
Sweater.....do.....	1		1	Q	When prescribed only.

<sup>1</sup> Detachment commanders are authorized to reduce, by 4 inches, the length of the handle of the hand ax issued to the Hospital Corps providing the change is made in a workmanlike manner. The shorter handle will be especially necessary for use by mounted men.

<sup>2</sup> The clothing component of the field kit includes the clothing actually worn by the soldier and that carried on the person or saddle. This is supplemented by the surplus kit, the two together constituting the clothing component of the service kit. The articles contained in each of these kits are given in general orders.

NOTE.—The method of packing the equipment for mounted and dismounted men is described in Drill Regulations and Service Manual for Sanitary Troops.
