

X-ray apparatus for base hospital, 500 to 1,000 beds

Apparatus, X-ray, interrupterless type, to operate on type of current stated in contract.....	number..	1	Crocks, earthenware, 5-gallon.....	number..	2
Apron:			Films:		
Lead, protecting, with leather straps.....	do....	2	Dental—		
Waterproof, 60 inches long.....	do....	1	Holders for development, Eastman.....	do....	10
Box for localizing apparatus.....	do....	1	1½ by 2½ inches (No. 4).....	gross..	1
To contain the following:			1¼ by 1½ inches (No. 1).....	do....	1
1. Parallel wire device for Strohl's method.			X-ray—		
2. Blaine's parallax localizer.			14 by 17 inches.....	dozen..	5
3. Localizing scale for cross-thread method.			10 by 12 inches.....	do....	10
4. Profoundometer localizer.			8 by 10 inches.....	do....	10
5. Hirtz compass.			5 by 7 inches.....	do....	5
6. Fluoroscopic adapter for Hirtz compass.			Film holders (case type) Eastman, 10 by 12 inches to accommodate 10 by 12 and 8 by 10 films between 2 screens.....	dozen..	2
7. Sutton localizing set.			Funnels, enamel ware, 6-inch.....	number..	2
Box lined with ⅜-inch sheet lead, water-tight, to be connected with sewer; inside measurements, 42 inches long, 22 inches wide, 19 inches deep. This box to hold tanks for developing, etc. (to be made by carpenter).....	number..	1	Glass cutter.....	do....	1
Box lined with ¼-inch sheet lead on all sides; 10 inches wide, 20 inches long, 18 inches deep, made of ¼-inch lumber, with hinged lid; for protection of X-ray plates (to be made by carpenter).....	number..	1	Glass, lead, ⅜ inch thick, 8 by 10 inch.....	pieces..	1
Box wooden, 12 inches long, 12 inches wide, 3 inches deep (to be made by carpenter).....	number..	3	Gloves, opaque, protective, gauntlet.....	pairs..	2
Bonnet, fluoroscopic (to be purchased in France).....	number..	2	Goggles, automobile type, fitted with red and green superimposed clear polished celluloid, Arlington Pyralin, colors 24 and 181, 0.01 inch thick, finish H. H.....	pairs..	2
Brush, camel's-hair, 3-inch.....	do....	1	Insulators:		
Carriers, plate, core:			4-arm, for high-tension wires.....	do....	2
10 by 12 inch size, monel metal.....	dozen..	1	Wall for carrying high-tension wires through partitions.....	number..	3
14 by 17 inch size, monel metal.....	do....	½	Lead foil, medium thickness.....	pounds..	10
Carrier, film (case) Eastman, for development:			Light, incandescent, blue, with pull switches.....	number..	2
10 by 12.....	dozen..	1	Lead, in sheets, 4 pounds to square foot.....	square feet..	100
8 by 10.....	do....	1	Localizer:		
14 by 17.....	do....	½	Eye, Kelley-Koett.....	number..	1
Charts, eye localizing, Kelley-Koett.....	number..	200	Profoundometer.....	sets..	1
Chemicals:			Sutton.....	do....	1
Barium sulphate, for X-ray diagnosis.....	pounds..	50	Blaine's parallax.....	number..	1
Chrome alum.....	do....	5	Marker, skin (to be purchased in France).....	do....	1
Formaldehyde.....	do....	5	Pitchers, enamel ware, 2-quart.....	do....	2
Hydroquinone.....	do....	5	Preservers, negative:		
Metol, or equivalent.....	do....	½	For 14 by 17 plates.....	do....	100
Potassium bromide.....	do....	1	For 10 by 12 plates.....	do....	200
Sodium carbonate, dry.....	do....	5	For 8 by 10 plates.....	do....	400
Sodium hyposulphite.....	do....	100	For 5 by 7 plates.....	do....	100
Sodium sulphite, dry.....	do....	15	Paper, tracing:		
Compass, Hirtz (to be purchased in France).....	number..	1	14 by 17 inches.....	sheets..	500
Fluoroscopic, adapter for.....	do....	1	10 by 12 inches.....	do....	500
			Plate rack, folding, for 12 plates.....	number..	2
			Pencils, grease, Blaisdell, red and blue, of each.....	do....	6
			Plate changer, stereoscopic, for 14 by 17 plates, Kelley-Koett.....	number..	1
