

TABLE 27.—*Depth of anatomical landmarks—Continued*

Incision	Depth of anatomical position
<b>Hip and thigh from front—Continued</b>	
To spine of ischium.....	Cm. 12.5
To anterior surface of line of junction of ascending ramus of ischium and descending of pubis.....	7.0
To ischial tuberosity.....	14.0
<b>Hip and thigh from back:</b>	
To ischial tuberosity.....	6.0
To spine of sacrum on level of posterior superior spines of ilia.....	3.0
To sacral groove.....	5.0
To head of femur.....	5.0
To greater trochanter.....	9.0
To lesser trochanter.....	7.5
To brim of pelvis 25 cm. in front of sacrotiliac synchondrosis.....	10.0
To anterior inferior spine.....	15.0
To spine of ischium.....	5.0
To posterior surface of junction of ascending ramus of ischium and descending ramus of pubis.....	11.0
